

October 7th, 2011

The impact of histone modifications and chromatin alterations on gene expression, stem cell differentiation and cancer

Luciano Di Croce

CRG, Barcelona, Spain

***October 20th (Thursday), 2011**

Chromatin and transcription regulate alternative splicing

Alberto R. Kornblihtt

IFIBYNE-CONICET,

Universidad de Buenos Aires, Argentina

October 28th, 2011

Emerging roles of microRNAs in the control of pancreatic beta cell functions

Romano Regazzi

Université de Lausanne, Switzerland

November 11th, 2011

Enhancer dynamics during vertebrate development and its influence on the genomic architecture

Jose L. Gómez Skarmeta

CABD, UPO-CSIC, Sevilla, Spain

*** November 21st (Monday), 2011**

Interplay between pathways that maintain genome stability

Andre Nussenzweig

NIH/NCI, Bethesda, MD, USA

November 25th, 2011

Nuclear and cytoplasmic regulation of gene expression by the CPEB-family of RNA-binding proteins. From cell cycle to tumor development.

Raul Méndez

IRB, Barcelona, Spain

December 16th, 2011

Understanding and Treating Malignant Melanoma

Marisol Soengas

CNIO, Madrid, Spain

January 13th, 2012

Why do we not understand the impairment of oxidative phosphorylation system

J. Antonio Enriquez

CNIC, Madrid, Spain

January 27th, 2012

Genome stability: impact on cancer, aging and longevity

Jan H. Hoeijmakers

Erasmus University, Rotterdam, NL

February 10th, 2012

Transcription and its interface with other DNA-related processes

Jesper Q. Svejstrup

Cancer Research UK,

London Research Institute, UK

March 2nd, 2012

Cancer-initiating cells in glioblastoma

Joan Seoane

Vall D'Hebron Hospital, Barcelona, Spain

March 9th, 2012

From oncogenic viruses to chromatin and cancer

Moshe Yaniv

Institut Pasteur, Paris, France

March 16th, 2012

Nucleocytoplasmic transport in the midzone membrane domain controls mitotic spindle disassembly

Juan Jimenez

CABD, UPO-CSIC, Sevilla

March 23rd, 2012

Cell competition and tumour development in Drosophila

Ginés Morata

CBM, Madrid, Spain

April 20th, 2012

Dissecting mechanisms controlling somatic cell reprogramming and tissue regeneration

M. Pia Cosma

CRG, Barcelona, Spain

May 25th, 2012

Neural stem cells: life at home

Isabel Fariñas

Universidad de Valencia, Spain

Fridays at TIME : 12:00

**Conference Hall, first floor, CABIMER,
Av. Americo Vespucio s/n, 41092 Sevilla**

CABIMER hosts invited Speakers every Friday at 12:00 noon.

Additional Seminars will be announced in due course.

For further information: www.cabimer.es
